1 The first Michelberger Hotel opens this month in Berlin. Created inside the shell of a former factory, period details include a clinker brick façade and vast windows. There are 119 rooms, and suites, many with space for up to four guests and a 'Big One' with room for eight in a space that cleverly utilises every corner with beds tucked away in a loft area. The reception desk is a circular welcome island in the middle of the bar, where DJs regularly set up the decks. Visit michelbergerhotel.com.
